Job Description: Boedeker Plastics, Inc., a rapidly growing plastics only CNC machining facility, is offering an excellent compensation and benefits package to experienced and highly motivated individuals for its Machining Operations. We are currently seeking experienced machinists to work in a temperature controlled environment that specializes in custom machining, ranging from single, one-off prototype parts to small volume runs using a variety of non metallic materials. Applicants should have at least 5 years of experience working with manual machines and exhibit a desire to learn set-up, programming and operating CNC equipment. Graduation from a 2-year Technical College machinist/manufacturing program will be considered as a substitute for experience. Proven ability to operate manual lathes, milling machines, grinders, saws, and a variety of hand tools is required. Candidates will be tested to determine skill level in performing routine shop math, interpreting drawings or prints to ASME Y-14.5M-1994 standards, and overall problem solving skills. Ability to interpret and modify existing machine language code programs will be considered a plus. Occasional lifting of 50-75 lbs. is also required. The ideal candidate will have a strong work ethic, be motivated and flexible in work assignments, and work well in a fast paced team environment. Salary is commensurate with skills and experience. Qualified applicants should apply at Boedeker Plastics, Inc., 904 West 6th Street, Shiner, Texas 77984 or e-mail resume to miker@boedeker.com. Boedeker Plastics, Inc. is an Equal Opportunity Employer. The future is plastic, come join our team and lets create the future together. If you have any questions or would like to schedule an interview, please contact myself at any of the numbers below. Thank you in advance for your consideration and we look forward speaking with each of you.
